

## C14616B1TSF Circulating Pump 1HP - 460/3

## **MULTIAQUA**

The American Stainless SSP C Series are end suction centrifugal pumps. The liquid solution handlingparts are constructed out of AISI 304 stainless steel for corrosion resistance. The casing is stainless steel construction with NPT threaded connections. The motor is open drip proof and has a totally enclosed fan cooled enclosure. Rugged ball bearing design for continuous duty under all operating conditions.
